

(P) Preparation	(I) Identification	(C) Containment
<div>1. Patch asset vulnerabilities</div> <div>2. Perform routine inspections of controls/weapons</div> <div>3. Maintain a list of vendors with system or network access</div> <div>4. Verify that vendors only have access to necessary systems and networks</div> <div>5. Isolate vendor accessible systems from the rest of the network as much as possible</div> <div>6. Routinely audit vendor network access and system accounts</div> <div>7. Force vendor accounts to use multifactor authentication where possible</div> <div>8. Ensure all systems and network devices log to a central location</div>	<div>1. Monitor for:<div>a. Vendor access during unusual hours/days</div><div>b. Vendor access from unusual sources (i.e. geographic locations, IPs, etc.)</div><div>c. Attempts by vendor accounts to access other systems/networks</div></div> <div>2. Investigate and clear ALL alerts associated with the impacted assets</div> <div>3. Routinely review vendor activity</div>	<div>1. Inventory (enumerate & assess)</div> <div>2. Detect Deny Disrupt Degrade Deceive Destroy</div> <div>3. Observe -> Orient -> Decide -> Act</div> <div>4. Issue perimeter enforcement for known threat actor locations</div> <div>5. Block access from the compromised vendor</div> <div>6. Lock accounts associated with the compromised vendor</div> <div>7. Inform vendor of detected activity</div> <div>8. Inspect all potentially compromised systems for IOCs</div>
(E) Eradication	(R) Recovery	(L) Lessons/Opportunities
<div>1. Patch asset vulnerabilities</div> <div>2. Perform Endpoint/AV scans on the systems of affected users</div> <div>3. Review logs to determine extent of unauthorized activity</div>	<div>1. Restore to the RPO within the RTO for affected systems</div> <div>2. Address collateral damage</div> <div>3. Reset passwords for vendors accounts</div> <div>4. Restore necessary vendor access when safe</div>	<div>1. Perform routine cyber hygiene due diligence</div> <div>2. Engage external cybersecurity-as-a-service providers and response professionals</div> <div><div>References:<div>1.
